

Welcome, Summer Camp Families!

Welcome to EC3! We are so excited for your children to be with us this summer. We look forward to doing so many new and exciting hands-on activities. We are striving to make camp an engaging and educational experience while providing a warm and inviting place for children to just be themselves. You'll see on the schedules enclosed we have worked to bring a balance of field trips, in-house presentations, and time at EC3 to explore topics both with the group and individually.

When you come to camp, make sure to check out our parent board and whiteboard message for camp updates and the daily activities. This is especially important for days we have activities planned: cold lunches and other items may be required. This is also a good way to keep informed on what your child is doing at camp and to communicate any concerns, questions, comments, or ideas to the summer camp teachers. We know how important it is to build a home-school connection and welcome any input from you.

We are looking forward to spending the summer getting to know you and your children, and would also like you to know who your children will be spending time with this summer! Bios are included here for a little information about this year's teachers. We look forward to meeting you and your children!

NICK SAUVE

My name is **Nick Sauve** and I am thrilled to be a teacher in the EC3 Summer Camp program, alongside my amazingly talented wife.

I was born and raised in Midland, MI and earned my elementary education degree from Michigan State University. This past year I moved to Lansing to conclude five wonderful years of teaching with Lenoir County Public Schools in Kinston, NC. I currently work as support staff at EC3 and also work at Colt Early Childhood in Waverly working with Kindergarteners and staff in the realm of technology.

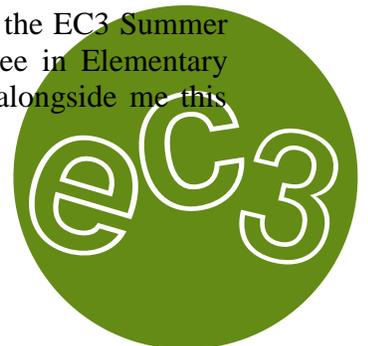

While I love sharing my love of teaching and technology, I also have many other interests that I enjoy as well. In my off time I love spending time with family, being outdoors, hitting the disc golf course, and collecting and listening to vinyl records!

It is my pleasure to be working with your children this summer. I can't wait to meet and collaborate with you all. We have weeks full of opportunities, exploration, and adventure ahead of us and I can't wait for them to get here.

BRITTANY SAUVE

My name is **Brittany Sauve**, and I'd like to express how excited I am to join the EC3 Summer Program team! I am a graduate of Michigan State University with a degree in Elementary Education. At MSU, I met my husband, Nick Sauve, who will be teaching alongside me this summer at EC3.

ec3kids.org

I am currently teaching 2nd grade in DeWitt Public Schools. I have been teaching for six years and have worked with students in Kindergarten, 2nd, and 4th grade. Nick and I spent the past five years teaching in North Carolina, but made the decision to return to Michigan last summer to be closer to family and friends. We are ecstatic to be back home in the Lansing area!

My hobbies include spending time with family and friends, travelling, arts and crafts, and gardening. I am excited to begin this new journey with EC3 and am looking forward to meeting you all in person, and the privilege of working with your child!

SUPPORT STAFF

As with our early learning programs, EC3 provides support staff who are trained in child development and are filled with a love of children. The support staff are very familiar faces to every EC3 child, and smoothly transition into the classrooms when primary caregivers are away from the classroom.

educational child care center • an exceptional place for young children • learn, laugh, grow
